

The University of Texas MD Anderson Cancer Center – Education and Training

The University of Texas MD Anderson Cancer Center has partnered with CastleBranch, one of the top ten compliance management companies in the nation, to provide you a secure account to manage your time-sensitive immunization requirements.

To set up an account and upload your immunization records, please complete the following steps:

1. Go to www.CastleBranch.com and click "PLACE ORDER" in the upper right-hand corner
2. Enter the following package code: **UF56**
3. Follow the directions to set up your CastleBranch account
4. After setup is complete, you will be prompted to enter your credit card information for payment of the \$20 processing fee. Money orders and electronic checks are also accepted, but will result in an additional \$10 fee and additional turn-around time in processing
5. You must download, print and complete the four-page **Demographics and Health Questionnaire** and then upload the document into your CastleBranch account
6. Parents of applicants younger than 18 years of age must download, print and complete the **Minor Consent Form**, which must then be uploaded into the CastleBranch account

Your record status will be identified as "**In Process**" until all documents have been received and processed. You will be notified if any additional information is needed. Once CastleBranch confirms that you have met all immunization requirements, your status will be identified as "**Compliant**." You may log in to your account to monitor your order status, view your results and respond to alerts.

IMPORTANT To prevent a delay in your MD Anderson appointment start date, please create your account with CastleBranch and submit all required documents as early as possible. Your status must be "Compliant" before you can begin your appointment. See instructions on last page for printing your Compliance Summary Report (also called the To-Do-List Summary Report) and then upload a copy of your report to the Immunization Compliance Report slot in Discover.**
